

Question - 2 part (a)(ii)

Ans

- Self regulation and health can be achieved by SANYAM (self control / self discipline).
- Health is achieved when there is a complete (good) fulfilment of needs of self and body.
- Self need peace and body needs are basic physical needs like food, shelter etc.
- These can be achieved by self discipline (SANYAM). Some activities include.
 - 1) Eat Good food.
 - 2) Sleep early, wake up Early.
 - 3) Do Exercise
 - 1) Meditation
 - 3) Avoid drugs, bad habits.

For Example:-

If there is a person who eats good food, have a healthy food but is going through stress, then that person is not considered as healthy.

Q.2a ii : 3.5

2025-07-19
